West Lake Groundwater Monitoring Report July 2013 12-1-13.pdf

John, John, and Dave,

The PRP's groundwater report from July 2013 is attached. Cecilia asked me to have you review this document and provide any observations you have that might help us present this information to the public. This report is essentially a data dump without interpretations, as EPA requested, so I don't anticipate providing comments back to the PRPs unless you find something fundamentally wrong with how they collected or QA'd the data.

Please have your observations back to me by December 13th so we can use them to help prepare for our next public meeting in January.

Sincerely,

Daniel R. Gravatt, PG

US EPA Region 7 SUPR/MOKS

11201 Renner Boulevard, Lenexa, KS 66219

Phone (913) 551-7324

Principles and integrity are expensive, but they are among the very few things worth having.
